Frontotemporal Degeneration  
**FIND HELP • SHARE HOPE**

**Frontotemporal degeneration (FTD)** is the most common dementia for people under 60. Striking earlier in life, it can devastate family relationships, finances and even the health of caregivers. You don't have to face FTD alone; AFTD offers information, resources, support, and opportunities to make a difference. Find out more: [www.theaftd.org](http://www.theaftd.org).
